CONCLUSION

- through the synergy of the organization and implementation of programs in virtual space and live programs, the Service successfully continued to promote the basic idea of every library – **the culture of reading**

A group of approximately 15 children are sitting on the grass in front of a blue mobile library trailer. They are all facing the trailer with their hands raised in the air, suggesting an interactive activity or a story time session. The trailer has the word "bibliothèque" written on it in a stylized font, along with illustrations of books and a rainbow. A black metal fence runs across the middle ground, separating the children from the trailer. The background is filled with lush green trees, and the scene is brightly lit, indicating it is daytime.
